Things can be very trying for a high school student. It's tough to make extra cash...unless of course you have a special talent. Najimi's friend, Tsuyuri, has been making money on the side drawing naughty fan comics and selling them at conventions. Najimi doesn't have a knack for drawing comics and has fallen in with a very unusual crowd. They are living in fantasy worlds and are now on the fringe of society attending comic conventions and hanging out in odd circles of friends with wacky interests and fetishes. But how can Najimi make money if she totally sucks at drawing?!
